

Nuborrow Knowledge Base (Starter RAG Document)

Overview

Nuborrow is a digital-first Canadian mortgage brokerage that helps customers compare mortgage products from multiple lenders and complete the mortgage process online. It is not a bank; it connects borrowers with lenders.

Core Services

Home Purchase Mortgages; Mortgage Refinancing; Home Equity Loans; Home Equity Lines of Credit (HELOC); Mortgage Renewals; Debt Consolidation using home equity.

Target Users

First-time home buyers, existing homeowners, people refinancing, customers renewing mortgages, homeowners seeking equity access, customers consolidating debt.

Mortgage Concepts

Mortgage: loan secured by property. Down payment: upfront contribution. Principal: borrowed amount. Interest: borrowing cost. Equity: home value minus remaining mortgage. HELOC: revolving credit secured by home equity.

Typical Customer Journey

Visit website → Learn using calculators and guides → Apply online → Submit documents → Credit/income review → Property valuation → Lender matching → Approval → Digital signing → Funding.

Platform Features

Online application, digital document upload, mortgage comparison, educational content, calculators, client support, remote process.

Frequently Asked Topics

Buying a home, refinancing, HELOC, debt consolidation, mortgage renewals, fixed vs variable rates, down payments, closing costs, affordability, pre-approval.

Potential FAQs

What mortgage can I afford? What documents are required? How does refinancing work? What is home equity? What is a HELOC? Can I consolidate debt? Fixed vs variable mortgage? How long does approval take?

Entities

Customer, Mortgage Broker, Lender, Mortgage, Property, Loan, Interest Rate, HELOC, Home Equity Loan, Application, Credit Score, Income, Property Value, Down Payment.
